

September 2020 Board Report
Sara Donlon
7-12 Principal

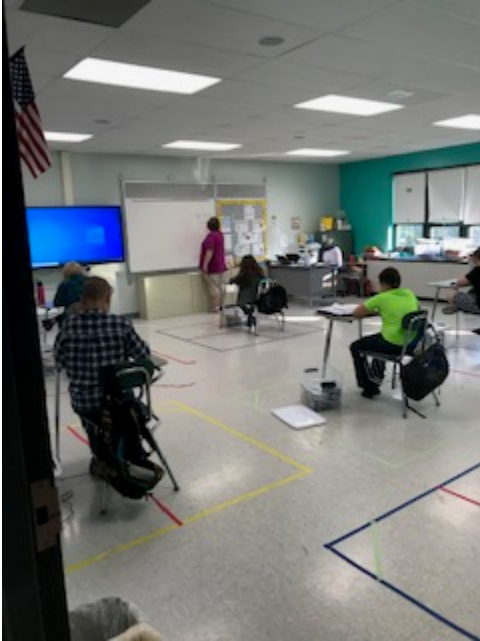

Students in Mrs. Bentley's Earth Science class measured ground temperature for a lab activity.

Mrs. Marciano discussed appropriate ways to tell a supervisor if an employee has a concern in Ms. Jordan's Life Skills class.

Mrs. Chichester introduced her 9th graders to Living Environment during the first week of school.

Mrs. Kozlowski went over class procedures with her Middle School students during the first week of school.

Mrs. Retchless introduced Esperanza Rising to her Novel Studies class.

Ms. Ryan taught a lesson to her eighth-grade math class outside in the fresh air.

The school year got off to a good start when our first group of students started on September 1st. Students were excited to be in the building and teachers were happy to greet them after a six-month absence. Technology was distributed and teachers started the year with classroom expectations and procedures. Staff and students continue to be trained on how to use Teams to join class meetings and access class materials and activities.
