

June 2021 Board of Education

Brian Edmister, Elementary Principal

Ms. Rizzo does Speech practice with student in front of 2<sup>nd</sup> grade essays. There is a lot of learning to be seen here!

A big thank you to Trevor Mullen and Killian McKnight as they have taken on teaching the Elementary all about fire safety! Great job guys!

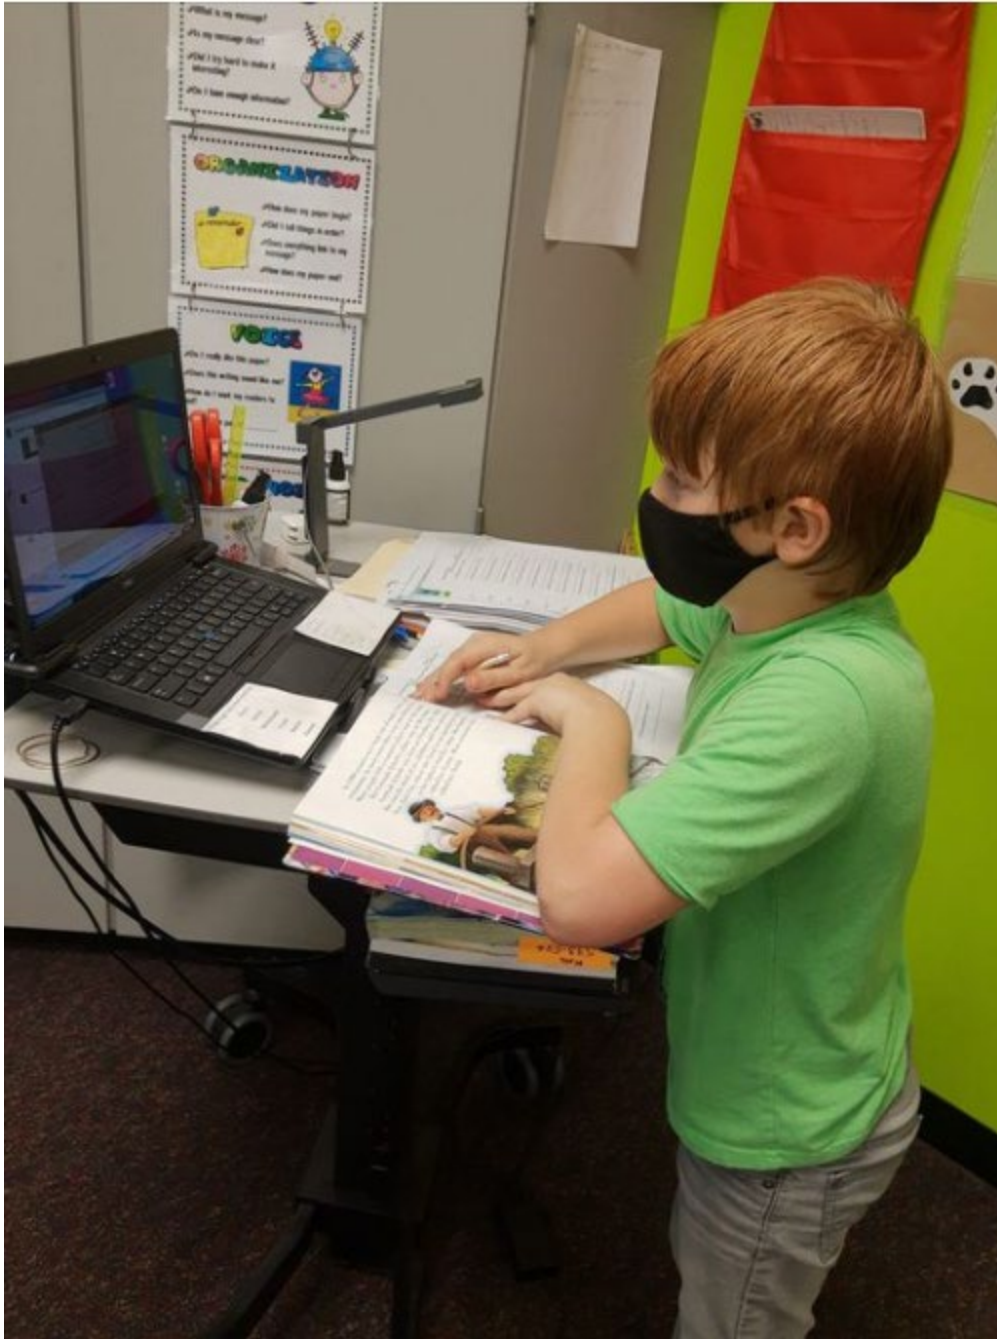

Families and students are already excited for a summer of fun and exploration at GV! It is so great to see this return!

The kids had so much fun during STEAM today. After reading 3 fairy tales, they built a ladder for Rapunzel's tower, a basket for Little Red Riding Hood, and a raft for The Gingerbread Man.

Ms. White's kids did some amazing work, used so many parts of their brain, and had a great time learning.

One of Ms. Schmidt's 3<sup>rd</sup> graders collaborates with a peer that is fully remote. While it may look different than we are used to, the kids find this type of interaction as normal as breathing!
