

September 2022 Board Report

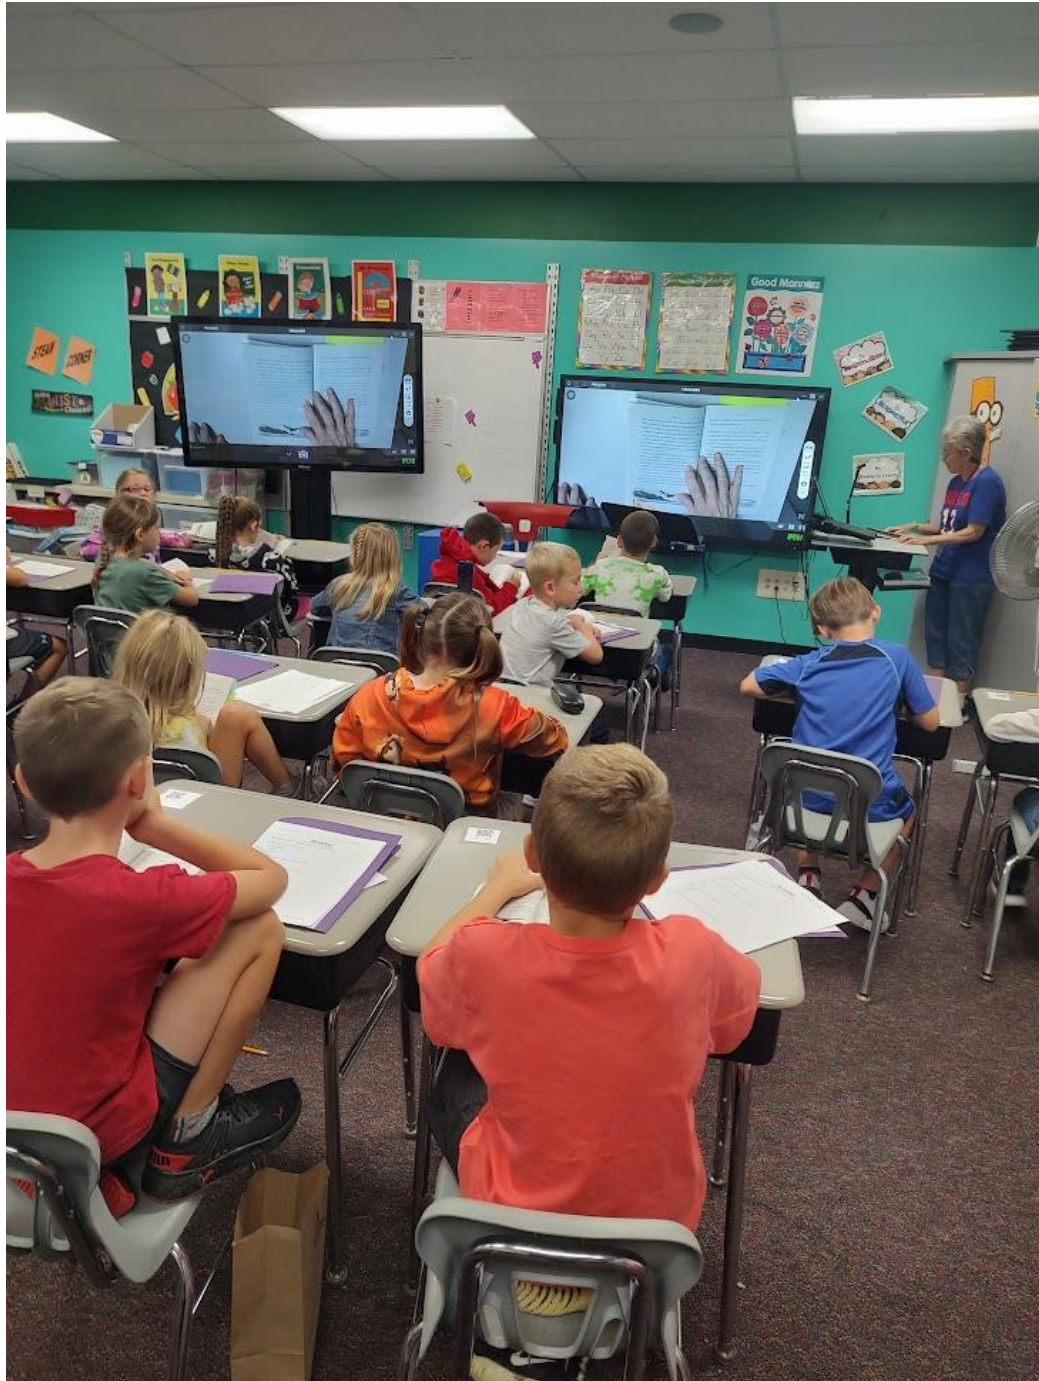

Brian Edmister, Elementary Principal

The big blue blocks are a fun time for kids to learn to build and practice engineering in the LGI room!

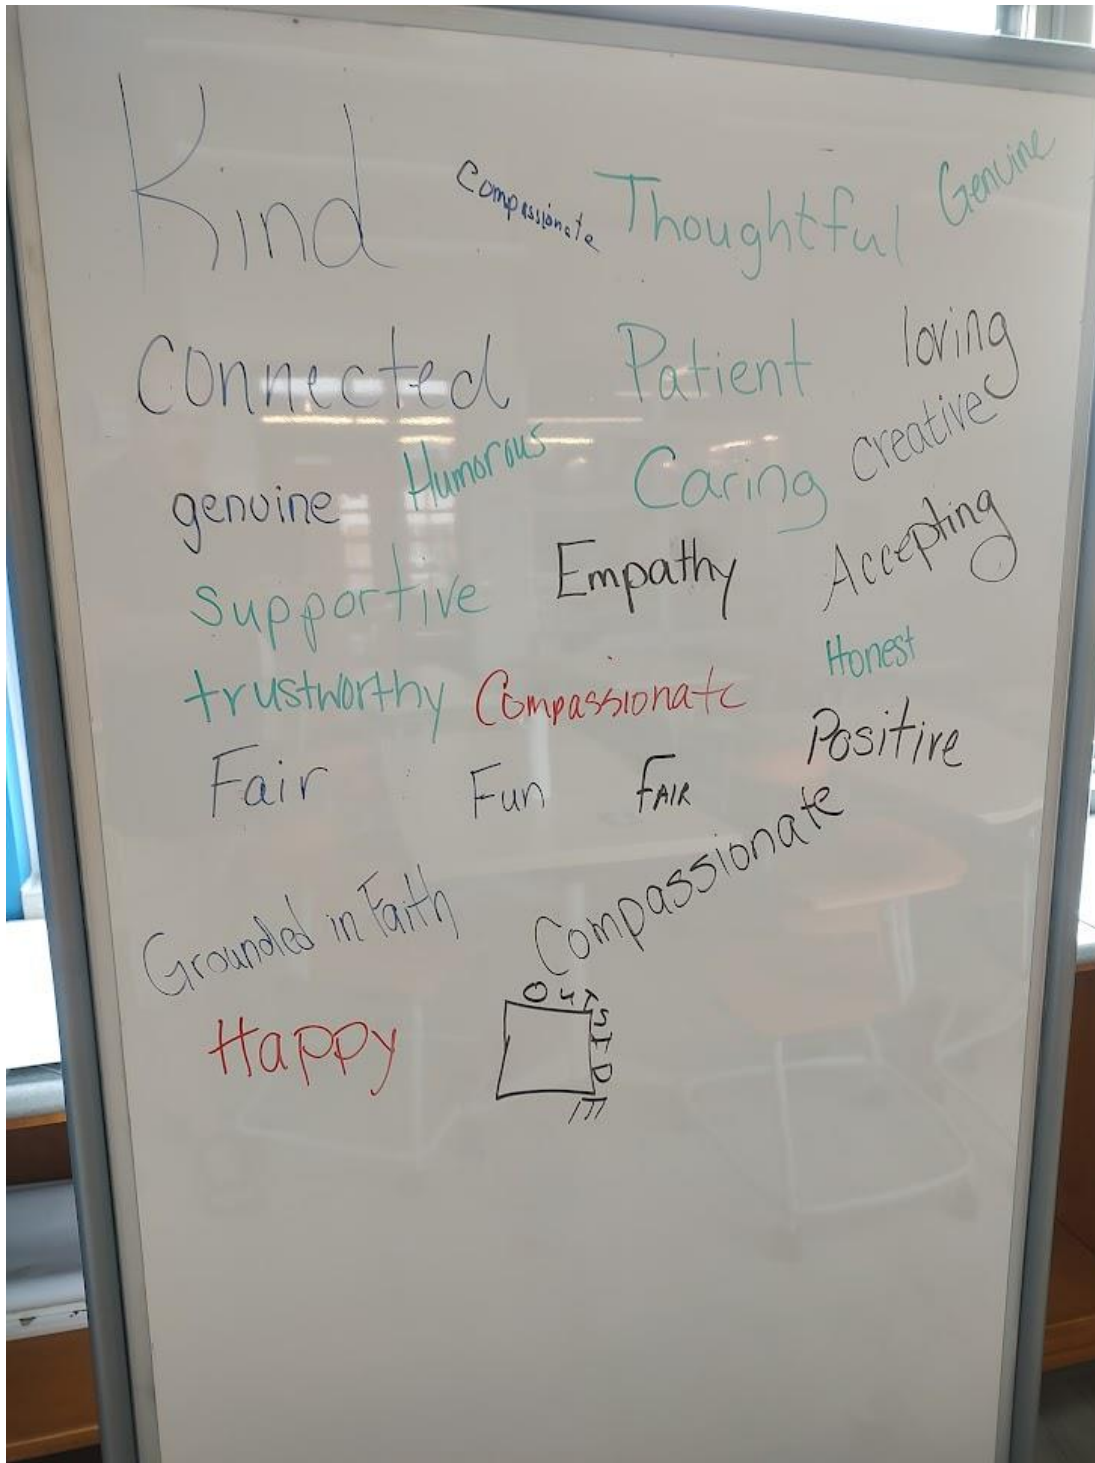

Kindergarten students begin their day working with STEAM bins in Ms. Johnson's classroom.

Ms. Kelley is reading Poppy from Side by Side Reading series to her 3rd grade students.

3PK is a busy place. Ms. Turybury helps one of our new students feel more at home! Some of our older students come down and help with centers in Ms. Bagley's classroom.

Teachers set their own goals for how they want their students to remember them. These words truly describe Genesee Valley Elementary!
