Our Vision

To support Allegany County community members who provide care to older adults. Together we can reduce the stress and social isolation commonly experienced by caregivers and older adults.

Caregiving is a commitment, and everyone needs a break. We seek to preserve dignity, independence, and overall quality of life for older residents and respite for you, the caregiver. Our **free** program offers you, the caregiver, an opportunity to take some time for yourself while your family member, friend, or neighbor engages in the program.

This initiative is a program of Ardent Solutions, Inc., in partnership with the Allegany County Office for the Aging and Genesee Valley Central School.

Do you care for a:

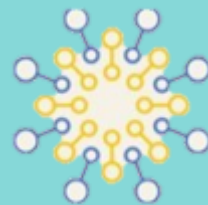

Family Member

Neighbor

Friend

From driving to housekeeping, and even simple companionship, caregivers are on a mission to make day-to-day life easier, safer, and more comfortable for older adults in their lives.

The Intergenerational
Enrichment and Educational
Respite Program is hosted at
Genesee Valley Central School

The program is **FREE** and is here to serve both you, the caregiver, and those you provide care for.

Our Program Is...

ENRICHING

Our Intergenerational Enrichment and Educational Respite Program focuses on bringing youths and older adults together in purposeful, mutually beneficial activities that promote greater understanding between generations and contribute to building more cohesive communities.

EDUCATIONAL

Inclusion in the local school community offers intergenerational programming, resources, and lively activities for older adults to interact with students from Pre-K through High School.

ENGAGING

Genesee Valley Central School takes pride in offering its facilities for learning, extra-curricular activities, and volunteering, where older adults and their caregivers are welcome and honored.
