Summary and Background Information

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund.

The federal ARP statute requires that States reserve ARP ESSER funds for three State-level reservations for evidence-based activities and interventions that respond to students' social, emotional, mental health, and academic needs and address the disproportionate impact of COVID-19 on students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.

- Not less than 5 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, activities to address the academic impact of lost instructional time by supporting the implementation of evidence-based interventions.
- Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based summer enrichment programs.
- Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based comprehensive after-school programs.

The 2021-2022 enacted New York State budget fully allocated the required SEA reserves as subgrants to 398 LEAs and NYSED has made allocations to two additional LEAs. Specific LEA allocations are detailed in Columns D, E, and F in the **ARP ESSER Allocations Chart** (see also in the Document Library). Please note that these funds are in addition to the *90% LEA ARP-ESSER ALLOCATION* listed in Column C of that workbook and must be budgeted for separately.

As indicated in NYSED's approved **ARP ESSER State Plan**, NYSED has included within this application a list of evidence-based interventions related to each state reserve. LEAs will be required to utilize state reserve funds to implement evidence-based interventions either chosen from the NYSED-selected list or from another reputable source (such as, but not limited to, the What Works Clearinghouse).

RESOURCES RELATED TO EVIDENCE-BASED REQUIREMENTS.

LEAs must select and implement evidence-based activities and interventions either chosen from the NYSED-provided list (embedded within each section of the application) or from another reputable source. Selected interventions must fall into one of the four tiers of evidence defined in the Every Student Succeeds Act (ESSA). Specifically, evidence tiers are defined as:

- **Tier 1 - Strong Evidence:** Supported by strong evidence from at least one well designed, well implemented experimental study (randomized-control groups). Studies show that this strategy improves a relevant student outcome (e.g. reading scores, attendance rates). In these studies, students have been randomly assigned to treatment groups or control groups, so that researchers can speak with confidence that those who participate in the intervention strategy outperform those who do not. These studies meet the What Works Clearinghouse evidence standards without reservations. The studies use large, multi-site samples.
- **Tier 2 - Moderate Evidence:** Supported by at least one well-designed and well-implemented quasi-experimental study (matched groups, interrupted time series, et al.) Studies have found that the strategy improves a relevant student outcome (e.g. reading scores, attendance rates). Students in these studies have not been randomly assigned, but researchers have used statistical matching methods that allow them to speak with confidence that the strategy results in an improved outcome. These studies meet the What Works Clearinghouse evidence

Introduction/Instructions - Background Information

standards with reservations. The studies use large, multi-site samples. No other studies show that this strategy negatively impacts an outcome.

- **Tier 3 - Promising Evidence:** Supported by at least one well designed, well implemented correlational study with statistical controls for selection bias. There is evidence that this strategy improves a student outcome (reading scores, attendance rates), but that research may consist of correlational studies -- studies that can show a relationship between the strategy and outcome but cannot show that the improved outcome was the result of the strategy. The studies supporting Tier 3 strategies do not have to be based on large, multi-site samples. A strategy that would otherwise be considered Tier 1 or Tier 2, but it does not meet the sample size requirements, is considered Tier 3. No other studies show that this strategy negatively impacts an outcome.
- **Tier 4 - Demonstrates a Rationale:** High-quality research findings or positive evaluation suggests that this will likely improve student outcomes or other relevant outcomes; and there are ongoing efforts to examine the effects of such activity, strategy, or intervention. Based on existing research, the intervention cannot yet be defined as a Tier 1, Tier 2 or Tier 3. However, there is good reason to believe — based on existing research and data — that the intervention could improve relevant student outcomes.

Further information may be found in the **Federal Guidance on Evidence-Based Interventions**. There are a number of resources available that identify research which supports specific interventions. Districts and schools are encouraged to review the various clearinghouses to find programs, strategies, and interventions that align to the needs identified during the needs assessment process. Finally, additional technical assistance materials to support LEA planning and implementation of strategies and interventions are available on the Department's **ARP ESSER webpage** and in the Document Library.

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated and an FS-10F Final Expenditure Report submitted by October 31, 2024.

Project Number

The project number stems for the three state-reserve programs are:

| Fund Code | Project |
|--------------|---|
| 5884-21-XXXX | ARP-ESSER 5% State-Level Reserve - Addressing the Impact of Lost Instructional Time |
| 5883-21-XXXX | ARP-ESSER 1% State-Level Reserve - Comprehensive After School |
| 5882-21-XXXX | ARP-ESSER 1% State-Level Reserve - Summer Learning and Enrichment |

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by **November 30, 2021** (with extensions by request) and will be reviewed on a rolling basis.

If an eligible school district does not intent to apply for one or more of its ARP ESSER State Reserve allocations, please advise NYSED by

ARP-ESSER State Reserve: Assurances

1. **The LEA assures that ESSER funds are used for activities allowable under section 2001(e) of the ARP Act, 18003(d) of the CARES Act and 313(d) of the CRRSA Act.**

YES, the LEA provides the above assurance.

2. **The LEA assures that it will comply with all reporting requirements at such time and in such manner and containing such information as the Commissioner may reasonably require, including on matters such as but not limited to:**
1. data on each school's mode of instruction (remote, hybrid, in-person), including student attendance data (disaggregated by student subgroup) for each modality;
 2. LEA uses of funds to meet students' social, emotional, and academic needs, including through summer enrichment programming and other evidence-based interventions, and how they advance equity for underserved students;
 3. LEA uses of funds to sustain and support access to early childhood education programs;
 4. impacts and outcomes (disaggregated by student subgroup) through use of ARP ESSER funding (e.g., quantitative and qualitative results of ARP ESSER funding, including on personnel, student learning, and budgeting at the school and district level);
 5. student data (disaggregated by student subgroup) related to how the COVID-19 pandemic has affected instruction and learning;
 6. requirements under the Federal Financial Accountability Transparency Act (FFATA); and
 7. additional reporting requirements as may be necessary to ensure accountability and transparency of ARP ESSER funds.

YES, the LEA provides the above assurance.

3. **The LEA assures that records pertaining to the ARP ESSER award under 2 C.F.R. § 200.334 and 34 C.F.R. §76.730, including financial records related to use of grant funds, will be retained separately from other grant funds, including but not limited to funds that an LEA receives under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act).**

YES, the LEA provides the above assurance.

4. **The LEA assures that the LEA will cooperate with any examination of records with respect to such funds by making records available for inspection, production, and examination, and authorized individuals available for interview and examination, upon the request of (i) the Department and/or its Inspector General; or (ii) any other federal agency, commission, or department in the lawful exercise of its jurisdiction and authority.**

YES, the LEA provides the above assurance.

ARP-ESSER State Reserve: Consultation

- 1. An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); teachers; principals; school leaders; other educators; school staff; and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, students involved with the juvenile justice system, and other underserved students.**

In the space provided below, please describe how the LEA has meaningfully engaged a diverse and representative set of stakeholders to receive feedback in developing its plans to address the impacts of lost instructional time, provide summer learning and enrichment, and support comprehensive after school activities using State-Level Reserve Funds.

The District Administrative team met in June 2021 to go over anticipated needs the District needs to focus on due to the impact of COVID-19. The team is made up of the business official, superintendent, principals, curriculum coordinator, director of technology, and head of maintenance. The business official and superintendent compiled these needs to determine a plan moving forward. The District also released a survey to community members, staff, and students in June 2021 to gather their input and determine how they feel the stimulus funding can best be used to support their needs. The superintendent and business official gathered these results and reviewed them to input these suggestions into our plan.

Future engagement of stakeholders includes town hall meetings scheduled quarterly to solicit feedback on the above and opportunities to address the Board of Education monthly. The District's Wellness Committee currently meets quarterly and addresses initiatives and pandemic concerns. In October 2021, the district hosted a Remote Medical Clinic and provided free medical, dental, ob-gyn, and optometry services to over 350 people for free. We scheduled another clinic in September 2022 to continue to meet the medical needs of the community.

- 2. In the space provided below, please provide the URL for the website(s) where the LEA Plan for using State-Level Reserve Funds is/will be publicly posted. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

<https://www.genvalley.org/Page/3240>

ARP-ESSER Application: State Reserves - ARP State ReservesARP-ESSER State Reserves - ARP-ESSER State Reserves: Consultation

Page Last Modified: 12/16/2021

- 3. In the space provided below, please describe how the LEA will support ongoing engagement with parents and families, including engagement related to identified student needs, areas of student gains, and available assistance to families that will support student success.**

Intervention meetings will periodically take place to discuss the pre and post-participation assessments of our students. These meetings will include teachers, intervention specialists, counselors, and administration to measure the students' gains and further discuss the areas of need. Once these areas are identified, meetings will be held with parents to make them aware of the plan and keep them engaged in their child's education. These meetings will take place several times a year to ensure the student is staying on track and all parent and student needs are met.

A+ Learning is a new tool that allows students to continue on with their classwork if quarantines or extended illnesses were to take place. This program is taught by a certified teacher and the coursework directly aligns with their classroom curriculum. This takes the pressure off of parents who are struggling to teach their children at home.

ARP-ESSER State Reserve: Comprehensive Needs Assessment

- 1. In the space provided below, please describe how the LEA will determine the social, emotional, mental health, and academic needs of students, particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

Faculty and staff built strong, positive relationships with students and families during the pandemic. We are committed to the well-being of the whole child and family. We provide food to families through a district-sponsored backpack program. Counselors check in regularly with absent students and lead socio-emotional lessons using the curriculum provided by ReThink Ed. The school social worker, counselors, and school security officer do home visits on absent students to ensure they are well cared for.

Approximately 57% of students at GVCS come from families at or below the poverty level. By upgrading ventilation, air ducts, flooring, and playground, the learning environment will improve for students from low-income families and children with disabilities. We serve students in subgroups from low-income families, children with disabilities, students experiencing homelessness, and children in foster care. Wellness activities are typically not a priority for students in the above subgroups. It is our goal to provide the healthiest facilities for students to learn and play in.

5% State-Level Reserve - Addressing the Impact of Lost Instructional Time: Program Design

- The interventions implemented through the 5% State-Level Reserve to address the impacts of lost instructional time must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for addressing the impacts of lost instructional time will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.

Genesee Valley will use ARP-ESSER funds to provide additional instruction both during and outside of the school day to further address learning loss. The district is reviewing assessment vendors that will evaluate skill deficits and identify strategies to improve skills. Benchmark assessments and additional time building ELA and Math skills will occur during classes scheduled during the school day and outside of school. State reserve funds will support a more robust after-school and summer academic clinic designed to prevent regression and to improve students' skills in ELA, Math, and STEAM learning.

- In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.

Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

Benchmark assessments will be completed quarterly. Faculty and staff will convene intervention meetings monthly to further differentiate instruction, incorporate new strategies to support academic and social, emotional, and mental health needs. Intervention meetings will include general education teachers, intervention specialists, school counselors, administration, and will review the student's progress monthly. Meetings will focus on skill-building, social, emotional, mental health, and communication with the family. Additional resources will be identified and growth will be celebrated.

ARP-ESSER State Reserves - Comprehensive After School

Page Last Modified: 02/16/2022

1% State-Level Reserve - Comprehensive After School: Program Design

High-quality afterschool programs should have the goal of providing students with important opportunities for academic support and access to enrichment opportunities that help develop social, emotional, and leadership skills. These benefits are particularly important to students from low-income backgrounds, students who are struggling, and students at risk for later academic disengagement. High-quality afterschool programs have demonstrated positive effects on student math and language arts achievement, and programs strongly rooted in the school context can also have a positive impact on school related student outcomes, including greater self-confidence, increased civic engagement, better school attendance, improved high school graduation, and decreased delinquency.

- The interventions implemented through the 1% State-Level Reserve for comprehensive after school programming must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for comprehensive after school programming will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

GVCS communicated earlier the robust review of evidence-based interventions used to identify student needs. This review included a wide variety of stakeholders including teachers, counselors, administration, and included feedback from parents and students. The state reserve funds will support the cost of benchmark assessments and additional interventions that include digital and print solutions for addressing identified student needs.

Identified students will attend after-school and summer enrichment programs designed to address learning loss in a manner that builds connections between content and the needed skills for success. An emphasis will be placed on skill-building, STEAM learning, and celebration of growth through an improved partnership between families, students, and district staff.

- In the chart below, please provide additional information about the planned evidence-interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.**

1% State-Level Reserve - Summer Learning and Enrichment: Program Design

Summer learning programs can offer another opportunity to accelerate learning, especially for those students most impacted by disruptions to learning during the school year. Schools and districts should design programs that work best in the local context and reflect the characteristics that evidence suggests lead to successful summer programs. These characteristics include: programs are voluntary, full-day lasting five to six weeks, include three hours of language arts and mathematics taught by a certified teacher each day, and include enrichment activities and experiences. Research points to the potentially positive benefits of strong summer programs. A longitudinal study of summer programs showed students who participated in the summer programs that were reviewed received some benefits in mathematics; however, students with high rates of attendance who attended programs for consecutive summers experienced the greatest learning gains. The amount and quality of instruction influenced the academic benefit, with the highest benefits to students attending programs with high-quality instruction provided by a certified teacher and high academic time on task.

- The interventions implemented through the 1% State-Level Reserve for summer learning and enrichment must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. The district used the same process outlined when selecting after-school programming for summer learning and enrichment. Stakeholders were included in discussions, a review of assessment and enrichment tools occurred, and strategies were formulated to improve student skills and maximize social, emotional, and mental health supports.
